

LDI adhesion promoter

Code M994743K001000

PRODUCT DESCRIPTION

Liquid additive that is compatible with solvent based screen-printing inks. The use allows the increase of ink's adhesion and scratch resistance on glass substrates.

TECHNICAL ADVICES

LDI adhesion promoter needs to be used in the suggested percentage according to the type of ink. This percentage is important in order to obtain excellent adhesion performance of the ink after the drying at 165°C and the eventual thermal treatment at 510°C.

Mix well after adding the promoter to the ink so as to homogenize the mixture.

STORAGE

Storage environmental conditions should be comprised between 15°C and 25°C and a relative humidity close to 50%. If the pristine packaging is well preserved, the product shelf life is 24 months.

PACKAGING

The standard packaging is 1Kg can.

IMPORTANT NOTE

The information given in this technical sheet is not intended to be exhaustive and any person, using the product for any purpose other than that specifically recommended in this sheet without first obtaining written confirmation from us of the suitability of the product for the intended purpose, does so at his own risk.

While we endeavour to ensure that all advice we give about the product is correct, we have no control over either the quality or condition of the substrate or the many factors affecting the use and application of the product.

Therefore, unless we specifically agree in writing to do so, we do not accept any liability whatsoever or howsoever arising for the performance of the product or for any loss or damage arising out of the use of the product.

The information contained in this sheet is liable to modification from time to time in the light of experience and our policy of continuous product development.

WARNING

This technical data sheet does not replace either the Safety Data Sheet or the specific Conformity Declaration. These documents may be required to our SHEQ (Product safety office), at the following e-mail address: safety@eptainks.com

The technical data sheet does not relieve the printer, who remains the only responsible of the respect of the regulations, the specifications and the related required certifications of the finished items.
