

Auxiliaries AQUA

Code 167-

RETARDER/THINNER

AQUA THINNER

Code M167382

Package: 5 L

- Retarder / Thinner.
- It balances the loss in humidity of the ink, because of overheating of the pallets.
- It allows to reduce the viscosity of the printing ink, by increasing its printability and stability in the screen, without compromising its opacity.
- The maximum use percentage is 5%. This product may be added to all the inks of the series AQUA

ADDITIVE "LOW TACK"

AQUA ADDITIVE LOW TACK

Code M167383

Package: 1 kg

- Specific additive for the series *Aqua*.
- It allows to reduce the surface tack of the printings, without compromising the printability and the opacity of the ink.
- *Aqua Additive Low Tack* is not an anti-foil additive.
- The maximum use percentage is 5%. This product may be added to all the inks of the series AQUA.

SPECIAL INSTRUCTIONS

- Always test the printing characteristics, before starting production.
- Always check curing conditions. The addition of additives could require different curing temperature and times.

WARNING

The data sheet does not replace the safety data sheet or the specific declaration of conformity, these documents can be requested from our SHEQ (Product Security Office), on safety@eptainks.com

The data sheet does not in any case exempt the printer, who remains solely responsible for compliance with the necessary and relative standards, specifications and certifications of the finished articles.

IMPORTANT NOTE

The information contained in this data sheet is not to be considered exhaustive, but whoever uses the product for purposes other than those specifically recommended in this document without a precise written confirmation from us, does so at his own risk.

Although we strive to ensure that all product recommendations here are correct, we have no control over the quality and conditions of the support, or the multiple factors that can affect the use and application of the product.

Therefore, unless expressly agreed in writing, we assume no liability - of any kind and in any way - for the execution of the product, nor for any loss or damage resulting from unauthorized use of the product.

The information contained in this document is subject to periodic reviews, based on experience and our policy of constant product improvement.
