	<p>Before using, the ink must be well mixed and in case diluted, according to the printing requirements.</p> <p>In order to increase adhesion onto such substrates, that are hard to be printed, add up to 10% of HARDENER N.2. Through the addition of such promoter, the ink has a pot-life of about 8 hours.</p> <p>For spray application, it is recommended to dilute the ink through THINNER 11.</p>	

STORAGE	The products, kept in their sealed original packages, have a shelf-life of two years.
